Summary

For Council to be advised of the Shires Municipal Account and Investments for December 2025 and January 2026

Background

To invest the Shire of Ngaanyatjarraku surplus funds with consideration of risk and at the most favourable rate of interest available to it at the time, for that investment type, whilst ensuring that liquidity requirements are being met.

Comment

Preservation of capital is the principal objective of the investment portfolio. Investments are to be performed in a manner that seeks to ensure security and safeguarding the investment portfolio. This includes managing credit and interest rate risk within identified thresholds and parameters.

The investment portfolio will ensure there is sufficient liquidity to meet all reasonably anticipated cash flow requirements, as and when they fall due, without incurring significant costs due to the unanticipated sale of an investment.

The investment is expected to achieve a predetermined market average rate of return that considers the Shire's risk tolerance. Any additional target set by the Shire will also consider the risk limitation and prudent investment principles.

Attached is a copy of the Shire Investment Register recording the details of these longer-term investments.

In a previous report within the agenda, the Shire Investments were presented. This report reflects the reconciliation of bank & investment accounts reported in the monthly financial report under Note 2 Cash & Cash Equivalent (August 2025).

Summary

For Council to consider and adopt the proposed amendments to the 2025/26 Budget as a result of the Mid-Year Budget Review process.

Background

The Department of Local Government and Communities has issued Circular No. 06/2006 to provide local governments with information about the budget review process. The following paragraphs are key points from the circular:

A budget review is a detailed comparison of the year-to-date actual results with the adopted budget. It establishes whether a local government continues meeting its budget commitments is in receipt of income and incurs expenditure in accordance with the adopted budget.

Shire Officers have completed a review of the Shire's 2025/26 budget as at 31 December 2025. This review is now presented to the Shire, and the outcome of that review is to be considered for adoption by The Shire. As part of the process Officers have examined the operations of the Shire for the 2025/26 financial year to date identifying the reasons for significant variances and the action required to address them.

The attached review compares the year to date (YTD) Budget with YTD Actual, and commentary is provided on variances to the adopted budget Officers have ensured that The Shire resolutions presented during the 2025/26 financial year have been incorporated in this Mid-Year Budget Review. Changes to the Adopted Budget are proposed by Officers where they believe that circumstances have occurred that impact permanently on the budget position for the financial year under review.

Comment

The 'net result' of the recommended changes is to have a balanced budget.

After considering all adjustments considered to be permanent changes to the budget position for the 2025/26 financial year detailed in the mid-year Budget Review Report, the overall position of the Shire of the revised forecast reduction of deficit of the adopted budget.

Financial Implications

After accounting for all permanent budget adjustments for the 2025/26 financial year, as outlined in the mid-year Budget Review Report, the Shire's revised forecast reflects a reduced deficit compared to the adopted budget.

These budget variances are not reflected in either the December or January Month End Report.

During the mid-year Budget review, there were savings made in following areas.

- **Employee Costs** – Decrease of \$67k due to a vacancy being filled by a consultant.
- **Insurance** – Increase of \$9k due to premiums being higher than originally budgeted, resulting in a modest increase in expenditure.

 - bank fees (\$2k)
 - increase in expenditures from insurance claim \$185k offset by income

Summary

To request Council approval, in accordance with the *Local Government Act 1995 (WA)*, for the application of the Shire's Common Seal to lease agreements for Units 4, 3, 11, 13 and 9.

Background

The Shire has entered into lease arrangements for Units 4, 3, 11, 13 and 9, which are located on Shire-owned property. These leases form part of the Shire's ongoing property and asset management activities.

Pursuant to section 9.49 of the *Local Government Act 1995 (WA)*, a local government may execute documents under its Common Seal. In accordance with section 9.49(2), the Common Seal may only be affixed by resolution of Council and must be witnessed by the Chief Executive Officer and one other person authorised by Council.

As the leases are required to be executed under seal, Council approval is necessary to authorise the affixing of the Shire's Common Seal to each lease agreement.

Comment

The proposed leases have been reviewed by officers and are considered consistent with Council's adopted policies and statutory obligations. The leases facilitate the effective use of Shire assets while providing certainty and enforceable tenure arrangements for the lessees.

Endorsing the use of the Common Seal will ensure that:

- the leases are lawfully executed in accordance with the *Local Government Act 1995 (WA)*;
- the Shire's contractual obligations are clearly documented; and
- legal and governance risks are minimised.

No operational impediments are anticipated as a result of Council granting this approval.

Statutory Environment

Local Government Act 1995 (WA)

- Section 9.49 – Execution of documents by a local government using the Common Seal
- Section 2.4(1)(b) – Council's role in governing the affairs of the local government

Financial implications

The execution of the leases will facilitate receipt of lease revenue in accordance with the agreed terms. The application of the Common Seal itself has no direct financial cost to the Shire.

10.9 WALGA Climate Change Advocacy Position – Consultation Paper feedback

File Reference:	GV.00
Reporting Officer:	David Mosel, Chief Executive Officer
Date Report Written:	20 February 2026
Disclosure of Interest:	The author has no financial, proximity, or impartiality interests in the proposal.
Voting Requirement:	Simple Majority

Summary

This report presents Council’s feedback on WALGA’s *Draft Climate Change Advocacy Position (2026)* as requested in the *Climate Change Advocacy Position Consultation Paper (January 2026)*. The feedback draws on the legislative, policy, technological, scientific and sector context outlined in the paper, and reflects Council’s priorities, challenges, and requirements in addressing climate change at the local level.

Background

WALGA developed a Climate Change Policy Statement in 2018, and since then, major legislative, policy, and technological changes have occurred.

In August 2023, the Shire adopted the WALGA Climate Change Declaration, showing its commitment to local climate action through achievable mitigation and adaptation efforts.

To align with sector priorities, WALGA now proposes a revised Climate Change Advocacy Position to guide effective climate advocacy.

After State Council's initial consultation in 2025 and input from the Environment Policy Team, WALGA has produced a draft Advocacy Position for Local Government feedback.

1. Local Government acknowledges the risks associated with, and is committed to, addressing climate change.
2. WALGA calls on the Australian and Western Australian Governments to:
 - a. Provide leadership, coordination and action to ensure an orderly transition to achieve emission reduction targets and address climate impacts.
 - b. Provide dedicated funding, guidance and practical support to assist Local Governments to undertake emissions reduction and adaptation actions.

The Shire of Ngaanyatjarraku supports the intent of the updated position, recognising the significant changes since 2018, including the *Climate Change Act 2022*, the *Local Government Amendment Act 2023*, the *National Climate Risk Assessment 2025*, and increased technological and scientific clarity.

Comment

Recent legislative changes require the Shire to plan for and manage climate risks as part of its core functions, introducing new governance and compliance responsibilities without dedicated funding or delivery tools. These obligations, combined with accelerating climate impacts and rapid technological change, increase risks to infrastructure, service delivery, community safety and access across the Lands.

General Support

Council supports the proposed updated Climate Change Advocacy Position and agrees it reflects the current legislative, economic and scientific landscape. The two core statements are clear, concise and appropriate for sector-wide adoption.

Importance of Stronger Government Intervention

Council supports WALGA's call for both Australian and Western Australian Government leadership to drive coordinated climate action. Local Governments require alignment across national and state frameworks, particularly in adaptation planning, climate risk management and sector capability building.

Need for Sustainable Funding and Resourcing

Council strongly endorses WALGA's recommendation for *dedicated, ongoing funding mechanisms* for Local Government climate mitigation and adaptation. Key areas requiring support include:

- coastal erosion management
- EV infrastructure and fleet transition
- energy efficiency upgrades to community facilities
- adaptation planning tools aligned with the National Climate Risk Assessment
- workforce capability building
- consistent climate hazard mapping and data access

Support for Regional Capacity-Building Initiatives

Council supports WALGA's advocacy for a statewide Regional Climate Alliance program. Regional partnerships have been shown to deliver efficiencies, reduce duplication, and accelerate progress.

Emphasis on Equity and Risk Exposure

Council highlights that:

- remote communities face heightened vulnerability to heat, extreme weather and infrastructure failure;
- smaller Local Governments lack capacity to meet new statutory obligations without additional support.

Policy Implications

Local Government Act 1995

Division 1 – General

Part 3 - S3.1(1A) General Function, Local Governments are now required to:

To promote the economic, social and environmental sustainability of the district; and

- b. to plan for, and to plan for mitigating, risks associated with climate change; and*
- c. in making decisions, to consider potential long-term consequences and impacts on future generations.*

Financial Implications

The introduction of new climate-related responsibilities without corresponding funding or resources may increase financial pressure. Limited capacity, funding, and expertise further challenge the fulfilment of these obligations. In the absence of targeted State or Federal investment, the financial burden on the Shire's budget is expected to grow as climate impacts intensify.

Disclosure of Interest:	The author has no financial, proximity, or impartiality interests in the proposal.
Voting Requirement:	Absolute Majority

Summary

Council is required to review the updated Code of Conduct for Council Members, Committee Members and Candidates, revised to align with Schedule 1 of the Local Government (Model Code of Conduct) Regulations 2021, as amended and in force from 1 January 2026.

Background

Section 5.104 of the Local Government Act 1995 requires local governments to adopt a Code of Conduct consistent with the Model Code of Conduct prescribed by regulation. The Shire last adopted its Code of Conduct in November 2025. Subsequent amendments to the Model Code commenced on 1 January 2026, requiring additional procedural provisions to be reflected in local Codes of Conduct following the appointment of the Local Governor Inspector.

Comment

The amendments do not change the behavioural standards expected of council members, committee members or candidates. The changes strengthen and clarify the governance and procedural framework for managing Code of Conduct complaints, including referral to the Local Government Inspector, appointment of a monitor, clarification of decision-making authority, updated terminology, and transitional arrangements.

The amendments are legislative in nature and reflect mandatory requirements of the Model Code of Conduct. No external consultation was required.

All amendments have been provided via track changes in Attachment 10.11 for easy identification.

Statutory Environment
